What Sets United Warehousing Apart From The Rest?

PROXIMITY

LOCATION

United Warehousing is positioned in the geographical center of Kentucky...Danville, located on north-south route US127 and on east-west route of US 150. The area is transversed by two Interstate Highways, I-75, 38 miles to the east and I-64, 39 miles to the north.

BY RAIL

The main route of the Norfolk Southern Railroad runs through Danville with a piggyback ramp located within minutes of our convenient location.

TRANSPORTATION

Danville is served by all commercial carriers, truck lines, and other route carriers.

Our ideal proximity to the North and South gives our customers the perfect location for fast, efficient concentration and/or distribution of your products.

SERVICE

At United Warehousing, we deal in service to our customers. We specialize in your needs. We work additional hours and days as your need requires. Warehousing and shipping are done according to your specifications.

Our facility is fully computerized for control of our customers inventory and our employees are professionals at dealing with your goods. Our management team has over 45-years of experience in shipping, inventory control, and warehousing.

We have the people, the technology, and the time to handle your goods efficiently and professionally.

FACILITY

Our state-of-the-art facility consists of 350,000 square feet with 35 loading doors and 2 ground level doors. Walls and ceilings are insulated to preserve your goods in the proper climate.

At United Warehousing, our customers are provided with the finest building standards in the warehousing industry.

ENVIRONMENT

We strive in maintaining a clean, safe, controlled environment for your goods. Our facility is diligently inspected for cleanliness and pest control. Our warehouse is equipped with an energy-efficient lighting system and dry sprinkler (class 4) system.

Your goods are monitored by a professional guard during non-business hours. No one but our trained employees are admitted to the building.

At United Warehousing, your goods leave just as they arrive.
